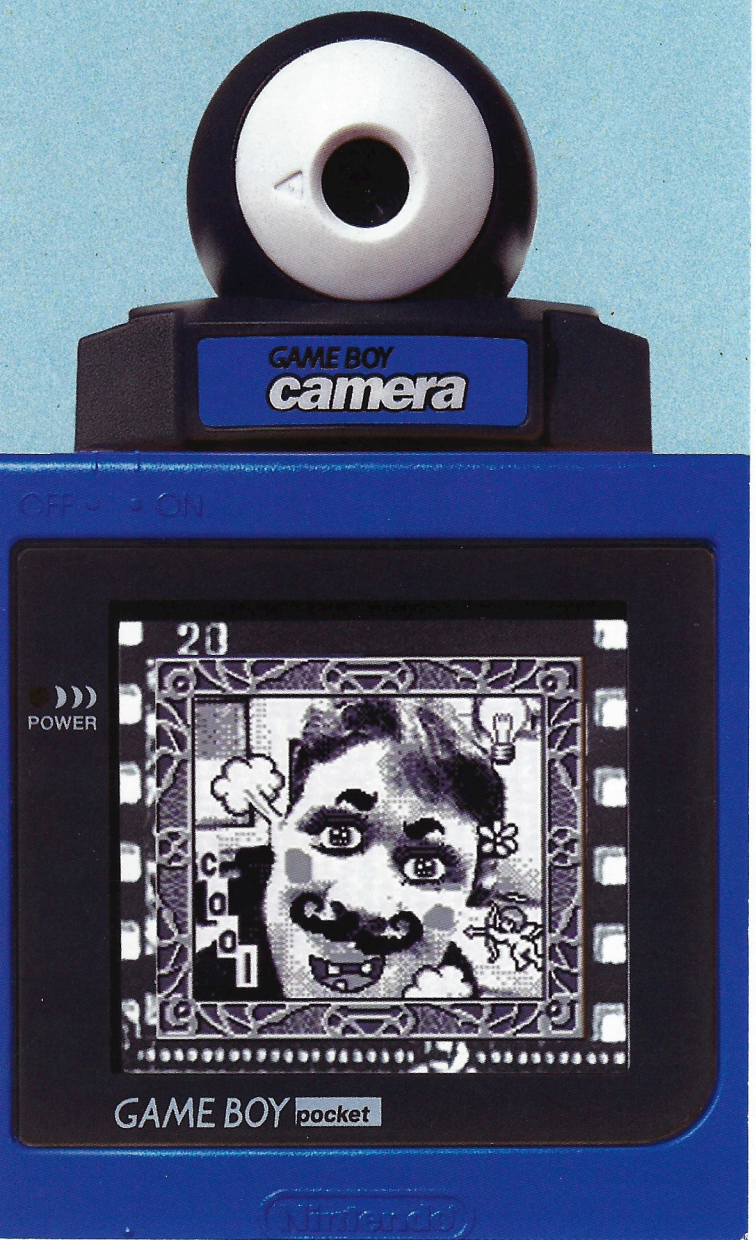
Ultra new-age gadgetry from the **Nintendo**® *laboratories.*

FUNTOGRAPHY™

Be prepared to be thoroughly *impressed* with this, the newest innovation in portable gaming that instantly turns any Game Boy® into a *camera*.

READ ON

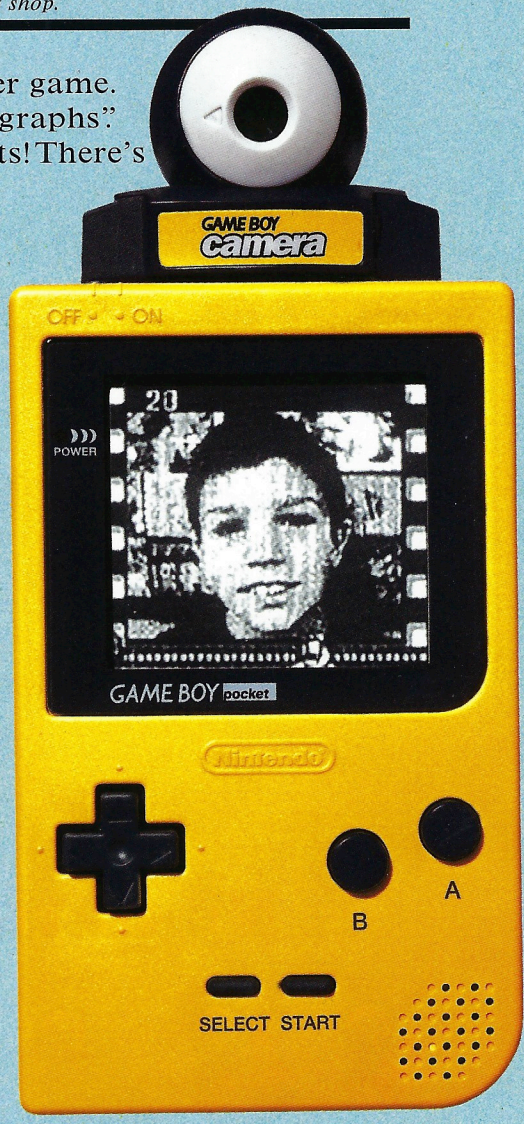
to *learn* more about this *giant* leap for push-button *technology*.



■ How does this marvel of the *Jet Age* work? ■

Enjoy your "funtographs" at home, school or at the malt shop.

SHOOT Insert the camera *cartridge* just like any other game. Now *simply* use the screen as a viewfinder to take your "funtographs." The camera's **eye** *swivels* 180 degrees for *interesting* self-portraits! There's **also** a self-timer and time lapse function.



CREATE!!

Now that you've taken a picture, the fun really begins.

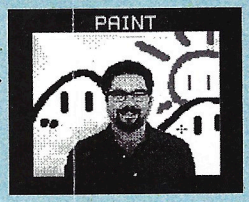
Choose from a long list of exciting features like these:

Create your own music and *be* the DJ!

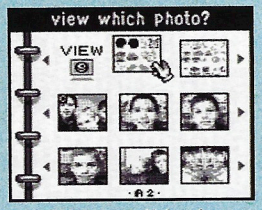
DJ MODE

Divide the screen into four frames.

Doodle and paint on your pictures!

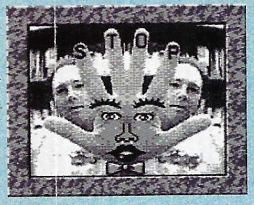


Place faces *INTO* a video game.



Create a slide show from your photo album.

Add your own special effects.



Use trick lenses.

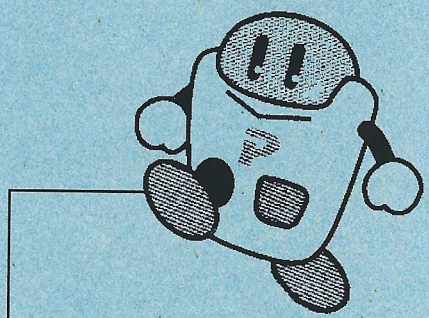
Combine any two shots!

PRINT Connect *your* camera to the *Game Boy ® compact printing press* **{sold separately}**. **Print** your "funtographs" onto adhesive *stamps*. *Peel* them off and place them practically anywhere you desire. **DO NOT** place stickers on animal *fur*. *The Game Boy ® camera puts the "fun" in "funtography".*

stamp

Science and Technology working for you!

Nintastic funtography!



"It's Nintastic!"
